# Celltherm Cold Rooms Designed For Life

Established as one of the foremost specialist manufacturers of cold and freezer rooms in Europe, Celltherm's reputation for quality and strength has been hard earned.

With a choice of models every 175mm, Celltherm boasts the largest range of standard size rooms available in Europe today and with a choice of three height options there will always be a Celltherm room to suit your purpose and your premises.

## Available

Celltherm's commitment to stock means that you do not have to wait to get your hands on your ideal cold room. It will be there when you want it.

Electronic control offering optimum efficiency. All units are fully automatic and in most cases operate from a 13 amp socket. The control incorporates an on/off switch for the internal light.

Easy-to-use jumbo door handle includes a safety release to prevent accidental lock-ins. The internal release handle is self-illuminating for use in the dark.

Our semi-rebated door with triple gasket guarantees the best possible seal and maximum efficiency of the room. All gaskets are easily removable for cleaning or replacement.

Unique to Celltherm, our "Passer - System" together with foamed-in camlocks offers unbeatable strength and tightness of joint giving maximum efficiency. An added benefit of this allows the rooms to be easily dismantled and moved or extended even many years after their original installation.

Hard wearing GFK floor offers a tough, non-slip surface together with easy cleaning. All floors are strengthened to offer a long working life.
